**Supporting Circles**

**The Circles program results in fewer people relying on government programs, receiving charitable/government aid, and fewer families teaching their children that getting by is the only option. When a community rallies around a cause and becomes united, something special happens and that is what is happening at Circles. You are invited to join us!** Circles Joplin is a community collaborative in partnership with the United Way of Southwest Missouri and Southeast Kansas. Because of the generous in-kind donation of time, talent, not-for-profit status and many other resources, the United Way has made it possible to launch Circles Joplin in a time frame not otherwise possible. A donation to Circles Joplin will assure that future members of our community can increase their social capital, education and financial security. **It also assures a more prosperous and healthy community for us all.**

**I would like to make a financial donation to Circles**

**I am most interested in knowing more about:**

- BECOMING AN ALLY:** An intentional friend who supports and learns from a person who is leading themselves into financial stability.
- SERVING ON A RESOURCE TEAM:** An action oriented advisory team that helps shape the program and find the resources necessary to make the program a success.
- Help provide one meal for a Circles meeting**
- Receive Circles Newsletter**
